## eCopy Highlight and Redact Extender

Automated document markups ensure privacy, save time, and accelerate collaborative processes.

The eCopy Highlight and Redact Extender enables users to quickly and easily conceal sensitive or personally identifiable data, identify areas of documents for further review, and streamlines editing processes using simple keyword-driven searches initiated at the time a document is scanned.

eCopy Highlight and Redact extends the functionality of any eCopy ShareScan connector, enabling users to automate previously manual tasks and eliminating user error. Redaction, highlight, and strikethrough mark-ups are permanently applied to the scanned document, which can be printed, distributed as PDF, or archived using any configured eCopy Connector.

Use the eCopy Highlight and Redact Extender to enhance your document scanning workflows, simply by adding a few simple search terms. Uses of the Extender include:

- **Law Firms/Legal Counsel**—Automate redaction tasks associated with Document Discovery and contract reviews and protect personally identifiable data at the point of capture.
- **Financial Services**—E-mail contracts and agreements with signature fields and other key data points highlighted for easy review. Permanently conceal classified information contained in consumer reports pursuant to processes defined in the Fair Credit Reporting Act (FCRA). Protect clients' nonpublic personal information, as defined by the Gramm-Leach-Bliley Act (GLBA).
- **Education**—Protect sensitive student information in accordance with Family Education Rights & Privacy Act (FERPA).
- **Healthcare**—Ensure patients' Protected Health Information (PHI) is concealed, to ensure disclosing only the minimum necessary information required, as defined by the Health Insurance Portability and Accountability Act (HIPAA).
- **Marketing**—Automate document revision, striking-through outdated product information for simple collaboration and review.
- **Sales & Customer Service**—Highlight incoming documents and contracts for easy review and routing to appropriate business owner.

The eCopy Highlight and Redact Extender is offered as a free download<sup>1</sup> available at <http://registration.ecopy.com>.

### Supported Languages<sup>2</sup>
